Tarun SINGH

DevOps & Cloud Engineer

tarunsingh1271@gmail.com | +33 7 45 69 21 71 | Paris, France | LinkedIn

Autorisé à travailler en France (Titre de séjour valide / RECE)

PROFIL / SUMMARY

Cloud & DevOps Engineer with 3+ years of experience in AWS, Kubernetes, CI/CD, and Infrastructure as Code. Skilled in Terraform, Docker, EKS, ArgoCD, GitLab CI/CD, DevSecOps, and cloud automation. Focused on building secure, scalable, highly available cloud platforms and automated delivery pipelines.

COMPÉTENCES / TECHNICAL SKILLS

- **Cloud & Infra:** AWS (EKS, VPC, EC2, IAM, S3, RDS, Route53, CloudWatch), Azure (Fundamentals)
- **DevOps & GitOps:** Kubernetes (HPA, Ingress, Security), Docker, Terraform, Ansible, ArgoCD (GitOps)
- **CI/CD & Metrics:** GitLab CI/CD, GitHub Actions, Jenkins, OpenTelemetry, Prometheus, Grafana, ELK Stack
- **Security & Code:** DevSecOps (Trivy, Snyk, HashiCorp Vault), Python, Bash, Node.js, TypeScript, PostgreSQL

EXPÉRIENCES PROFESSIONNELLES / WORK EXPERIENCE

Cloud DevOps Engineer — 11/2024 – 06/2026

Hitachi — **Paris, France**

- Orchestrated AWS EKS production clusters using Helm and Kubernetes manifests, securing deployment consistency across environments and standardizing microservices setup.
- Optimized AWS compute spends by 15% via Horizontal Pod Autoscalers (HPA), Cluster Autoscaler, and engineered precise pod resource limits to control over-provisioning.
- Automated CI/CD GitOps continuous delivery pipelines using GitLab CI/CD and ArgoCD, implementing strict Kubernetes RBAC and pod security policies.
- Provisioned infrastructure as code (IaC) with highly reusable Terraform modules and Ansible, eliminating manual configuration drift and accelerating setup time by 40%.

DevOps Engineer Intern — 04/2024 – 09/2024

Qubit Pharmaceuticals — **Paris, France**

- Accelerated AWS CI/CD pipelines built on GitLab CI, raising automated test coverage and validation to 98% and reducing regressions by 30%.
- Established end-to-end observability by centralizing logs and system metrics with Elasticsearch (ELK), Prometheus, and Grafana, cutting MTTR by 25%.
- Automated repetitive operations via React operations dashboards and Python / Bash automation scripts, reducing manual sysadmin workloads by 12 hours/week.

Software Engineering Intern — 03/2023 – 08/2023

Fluwid Technologies — **India**

- Developed production REST APIs using Node.js and TypeScript, serving 10,000+ active users with p95 response latencies below 200 ms.
- Optimized PostgreSQL schemas and indices, leading to a 40% boost in query execution speed under highly concurrent loads.
- Enforced API endpoint security by implementing JWT, OAuth 2.0, and robust Role-Based Access Control (RBAC) across microservices.

Frontend Developer — 01/2022 – 08/2022

Brain Mentors Pvt Ltd. — **India**

- Built responsive interfaces with React and JavaScript, optimizing client-side rendering speed and improving user engagement by 20%.
- Collaborated in Agile sprints to triage browser bugs and client-side performance hurdles, reducing customer-reported tickets by 30%.

PROJETS TECHNIQUES / PROJECTS

- **Enterprise DevSecOps GitOps Pipeline:** Integrated GitHub Actions, Snyk (dependency scans), Trivy (image scans), ArgoCD for continuous synchronization, and HashiCorp Vault for dynamic secrets management.
- **OpenTelemetry Observability Lab:** Decomposing microservices traces and logs with OpenTelemetry, Prometheus, and Grafana in a home lab running at $0 cloud costs (FinOps focus).

FORMATION / EDUCATION

MSc in Cybersecurity & Cloud Computing (Grade de Master / Bac+5) | ESILV, Paris, France — **09/2022 – 10/2024**

CTI-Accredited Elite Graduate Engineering School (Grande École)

Bachelor of Computer Applications (équivalent Licence / Bac+3) | Chandigarh University, India — **08/2018 – 06/2021**

CERTIFICATIONS, LANGUES ET CENTRES D'INTÉRÊT

CERTIFICATIONS (Targets)

- AWS Solutions Architect Associate (SAA)
- Certified Kubernetes Administrator (CKA)
- HashiCorp Terraform Associate

LANGUES / LANGUAGES

- **English:** C2 - Fluent / Bilingual
- **French:** A2 – Working

CENTRES D'INTÉRÊT / INTERESTS

- Homelab Infrastructure Management
- Technical Open-Source Contributions
- Long-Distance Running (Marathon)
